EXPERIENCE

RAZORPAY **Bangalore, India**
Senior Analytics Specialist
Risk, Trust & Safety *Nov23 – Present*

Insight Projects:

- Led **fraud analytics** for **UPI & Cards** from **scratch ($25M annually, incident rate: 2bps),** collaborating with **ops and PMs**; identified mitigation opportunity for **>30%**; overseeing project success by managing project from development to IA
- **Partnered** with cross-BU teams to design a new-risk engine for **SR uplift & fraud control,** boosting **SR** by **0.5%** and **controlling fraud** from 7% to **market leading <0.2%**

AI & ML:

- **Vibe coded & deployed** an **AI Slack bot, socialised** and **drove adoption** across **6 teams,** reducing MTTR of insights by 90% for 100+ stakeholders & saved **30 man days/month**, solution framework in development across 3+ other pods
- Co-engineered a **website-risk** assessment **agent** to automate merchant risk analysis, saving est. **600+** hours/month
- Created an **AI copilot** for real-time mitigation of traffic spikes, reducing **MTTR by 95%** and saved est. **300** hours/month
- **Improved** merchant-risk decisioning by contributing to the ML feature set redesign, removing inherent model biases & creating a **retraining** automation**, increasing** accuracy by **30%** and cutting manual reviews by **20 analyst-days/month**
- Applied LLMs to add a new merchant risk signal **(~20 merchants** disabled/month) and improve the **interactions-per-merchant** metric (CX indicator) **by 20%** by filtering automated inbound emails and enhancing outbound email content

Experimentation:

- **Leveraged** block-override **experiment** (10% declines let through) to evaluate rule performance; analysed override transactions to **infer population-level fraud rates**, **lowering** declines by **2%** while **stabilising fraud** & disputes
- **Supported design** and **inference** of an **A/B test** to evaluate replacing a 3P model with in-house payment-risk ML model

Infra Maintenance & Improvement:

- Led **optimisations** for merchant risk system's 1-10 phase, reducing workflows by **30%** & saving **2000** monthly man **hours**
- Built data pipelines to **overhaul** a legacy reporting-system, improved metric reliability that scales with product transition
- **Advanced** vendor integrations (Fingerprint, Truecaller, Visa) into existing systems to **increase** risk-mitigation capabilities

Offers Engine | Platform Product *Dec'25 – Present*

0-1 Experience:

- Sole analyst in the pod; collaborated across 6 BUs to build **first ever accurate reporting view** after 1.5 years of pod-ops
- **Kickstarted & program-managed** offer engine failure rate RCA with engineers, reducing to **20%** from **40%** in **4 weeks**
- Co-created FY27 product strategy, **solely defined** analytics **OKRs for FY27Q1**, automating data workflows using skills

BIJAK **Gurgaon, India**
Early stage (series B) B2B agri trading marketplace enabling trade of $500M GMV
Product Analyst | Engagement, Growth and ERP (sole product analyst in the technology team) *Mar 2022 - Sep 2022*

- Conceptualised and **implemented cohort-based shortcuts** on home screen, boosted new feature discovery by **15-40%**
- Integrated a correlation-matrix to enable **cross-discovery** of products – est. increase in **feed engagement by 20%**
- Wrote a concept-note for call-rating feature, optimised touchpoints for invoice creation and reduced drop-off by >20%

PORTER **Bangalore, India**
Business Analyst | Booking Experience, Allocation/Fulfilment, Partner Apps *Jan 2021 - Feb 2022*

- Designed metrics & **ran A/B tests for 8 feature releases** such as auto-pickup & multi-stops –increasing in-app vehicle discovery, **boosting conversion by 10%** & cutting API hits by 20%, driving **orders/sessions KPI up by 15%**
- Enabled SLA improvement by testing hypotheses to improve partner arrival time (ETA) & **trip time accuracy by 33-40%**
- Maintained a data-app used by 200+ members for surge pricing decisions, boosting topline & reducing analyst overhead

RECOGNITIONS

***Game Changer**:* Annual award for being the top innovator in the 150+ member analytics, data-science, data-platform teams
***Open House BU Award**:* Owned end to end analytics for Razorpay's remote MCP server launch
MVP: Improved customer experience metrics (service-volume) by reducing workflows by a data + context driven approach
MVP: Prevented churn of a 250M$ GMV by creating POC of domestic fraud, informing product strategy for the last 1 year
Rookie MVP: Created repository for merchant fraud MOs & launched a risk signal; laid groundwork for 3 new signal release
Embark Warrior: Led analytics for 80k+ merchant risk checks responding to RBI-embargo notification

EDUCATION

BITS Pilani, Goa Campus (*Integrated Masters***:** *Mathematics***)** *Aug 2016 - July 2020*

- Received KVPY scholarship from Government of India, covering 25% of tuition costs for 2 years
- Moot-Court Coordinator**: Co-led a team of 20** to host India's biggest *independent* Moot-Court
- Project Lead of Nirmaan: Led a team of 40 to **tutor kids in a slum**; 2/40 selected for state-sponsored education
